

# THE Heart Of The Community

By April Ray

## Well Care Foundation

The Well Care Foundation is an organization helping single working mothers that are not able to afford health insurance but not dependent on state assistance. The organization was founded in 1999 with the goal of providing physical, mental and emotional support to underserved mothers and their children, at no cost. The participating practitioners of the Well Care Foundation represent all aspects of medicine; this also includes alternative medical practices.

Upon arrival, each member of the family is given a health assessment by a registered nurse. This process is used to create a healthcare plan. From here, families can be referred to specific practitioners for further care. Well Care Foundation, 55 East Lexington Ave., Phoenix, 602.263.7619, [www.welldcarefoundation.org](http://www.welldcarefoundation.org).
